## OGN Update

Steve Trone

### New station

Griffith OGN receiver commissioned, located – 190 km north of Tocumwal Soaring Centre, and 130 km west of Temora Gliding Club – the station extends coverage in one of our core soaring regions.

Many thanks to Luke Ayling of Growers Services Griffith for hosting the receiver, Jayden Bashford of Mildura CCTV & Data for organizing the site and making the 900 km round trip for installation, and to the Victorian Soaring Association, NSW Gliding Association, and the Gliding Federation of Australia for their generous support and funding.

### Last 12 months

Over the past 12 months, new OGN stations have been installed at Lake Boga and Hay.

### Next 12 months

Looking ahead, installations are planned at Mt Beauty airfield (YMTB) – home to the Alpine soaring and Mt Beauty Gliding Clubs – as well as an off-grid station at Mt Emu (near Mt Bogong), which will provide coverage across Victoria's alpine region. Special thanks to Peter Mack for his dedication and efforts in bringing the Mt Emu project to life.

## Working bee

Our recent working bee was a great success! The clubhouse and surrounding grounds have been improved, with noticeable upgrades that make the space more welcoming and enjoyable for everyone. It was wonderful to see members come together, contributing their time, energy, and skills to get the job done. A big thank you to all who helped

***A big thank you to all the members who helped with the working bee, it's what keeps our club going!***
